Abstract

MUET document portal is an easy, effective, and unchallenging solution to the outdated and bygone methods of obtaining academic certificates and various documents for the students of Mehran University of Engineering and Technology. As Mehran is one of Pakistan's best Engineering universities, it is making constant endeavors to provide the students with as much aptitude as it can as students are residents of different cities and it is a complete hassle to outback from their cities for retrieval of their document. Hence by MUET Document Portal, they can easily get their verified document digitally.

MUET Document Portal contains different categories of academic documents which can be requested for retrieval using a form-filling procedure that will be reflected in the admin portal and saved in the database so that no important information is neglected. After the procedure, the required documents will be sent to students on the portal.

MUET Document Portal is an easier and more effective way to access one's documents in a digitalized format. The procedure to fill out an application is uncomplicated and trouble-free, the issuance procedure is faster and the convenience is noticeable.
